EXPERIENCE

XLR8 Development

June 2022 – Present

Software Engineer II

- Developed web and mobile applications for multiple clients primarily in a small team or solo environment.
- Maintained a strict schedule of releasing key sprint features on time ensuring confidence from clients.
- Led projects such as eFinalDate, Pixingo, and Story Tyke, leading client meetings, sprint planning, and development.
- Reduced response time of key endpoints by over 100% on an application with over 10,000 users by optimizing queries, saving on server costs for a client.
- Built and maintained web and native iOS/Android applications from the ground up according to client needs.
- Reviewed and deployed fellow engineers' code according to company best practices.

XLR8 Development

Feb. 2022 – June 2022

Software Engineer I

- Led development on Cheerlending.com and Tieredtracker.com by contributing to full-stack development, client meetings, and overseeing code review,
- Overhauled existing APIs to scale to the needs of larger user-bases. Saw improvements of over 50% in response time from multiple endpoints.
- Developed features and fixed bugs for various web and mobile applications.
- Collaborated with team members to deliver high-quality software solutions for a variety of clients.

XLR8 Development

Aug. 2021 – Feb. 2022

Junior Software Engineer

- Assisted in the development of web and mobile applications under the guidance of senior engineers.
- Participated in code reviews and contributed to improving code quality.

Tiger Mountain Country Store

July 2017 – Sept. 2020

Retail Associate

- Provided excellent customer service and handled daily store operations.
- Managed inventory and restocked shelves.
